SUMMARY

Motivated Computer Science student with a strong foundation in Java, SQL, HTML, CSS, and JavaScript, along with a good understanding of Object-Oriented Programming and database concepts. Hands-on experience in developing academic and personal projects, with a passion for software development, problem-solving, and continuous learning. Seeking an entry-level Software Developer role where I can apply my technical skills, contribute to impactful projects, and grow as a software professional.

TECHNICAL SKILLS

Programming Languages : Java, JavaScript, SQL

Web Technologies : HTML, CSS, Responsive Web design

Database : MySQL

Tools and Technologies: Git, GitHub, Eclipse, Visual Studio Code and Vercel

Concepts : Data Structures, Object-Oriented Programming (OOP), DBMS

PROJECTS

Kotaiah WoodCraft – Carpenter Website — [Live Demo](#)

July 2026 – Sep 2026

HTML5, CSS3, JavaScript, Git, GitHub Pages, Vercel

- Developed a fully responsive multi-page website supporting a carpentry business with 15+ years of experience, helping establish an online presence and expand customer reach beyond word-of-mouth referrals.
- Created a premium wood-themed user interface using HTML5, CSS3, and Vanilla JavaScript, delivering a consistent experience across mobile, tablet, and desktop devices.
- Built dedicated pages for Home, About, Services, Gallery, and Contact, creating a structured navigation system that allows customers to explore services and completed projects easily.
- Integrated WhatsApp inquiry and click-to-call functionality, allowing customers to contact the business instantly with pre-filled service inquiry messages for a smoother booking experience.
- Implemented an interactive Furniture Cost Estimator that calculates approximate price ranges based on furniture type, material, and size, while automatically generating personalized WhatsApp inquiry messages.
- Optimized the website for Local SEO by implementing Schema.org Local Business JSON-LD, including business details, geographic coordinates, service areas, and structured business information for better search engine visibility.
- Enhanced user experience with modern UI features such as a sticky navigation bar, mobile hamburger menu, smooth scrolling, animations, dark/light mode, and optimized image loading for improved usability.
- Managed the complete project lifecycle using Git and GitHub, resolved image path and deployment issues, and successfully deployed the live website using GitHub Pages for public accessibility.

ACHIEVEMENTS & CERTIFICATIONS

- **Java Programming - HackerRank:** Earned 3 badges on Hackerrank (Java) by consistently solving programming and problem-solving challenges.
- **CodeChef:** I've successfully solved 250+ coding problems on CodeChef, and earned the Silver Badge on CodeChef.
- **Java Programming – Infosys Springboard :** Successfully completed Java Programming Certification from Infosys Springboard, gaining hands-on knowledge in Core Java and Object Oriented Programming.
- **SQL (Basic) – HackerRank — 2026 :** Validated SQL fundamentals, including SELECT, JOIN, GROUP BY, WHERE, aggregate functions, and basic database querying.

EDUCATION

Master of Computer Applications (MCA)

2025 - 2027 (Expected Graduation : 2027)

Aditya University, Surampalem (Kakinada)

Bachelor of Computer Applications (BCA)

Graduated: 2025

Andhra Loyola College, Vijayawada
